

HEAVY.EARTH / HE8

One template. Every panel. Keep the marked TOP edge up.

8 x 8 in panel | 1 x 1/2 in diamonds | exact 2:1 slope (26.565 degrees)

↑ TOP

PRINT AT ACTUAL SIZE / 100%. Turn OFF Fit, Shrink and borderless expansion.

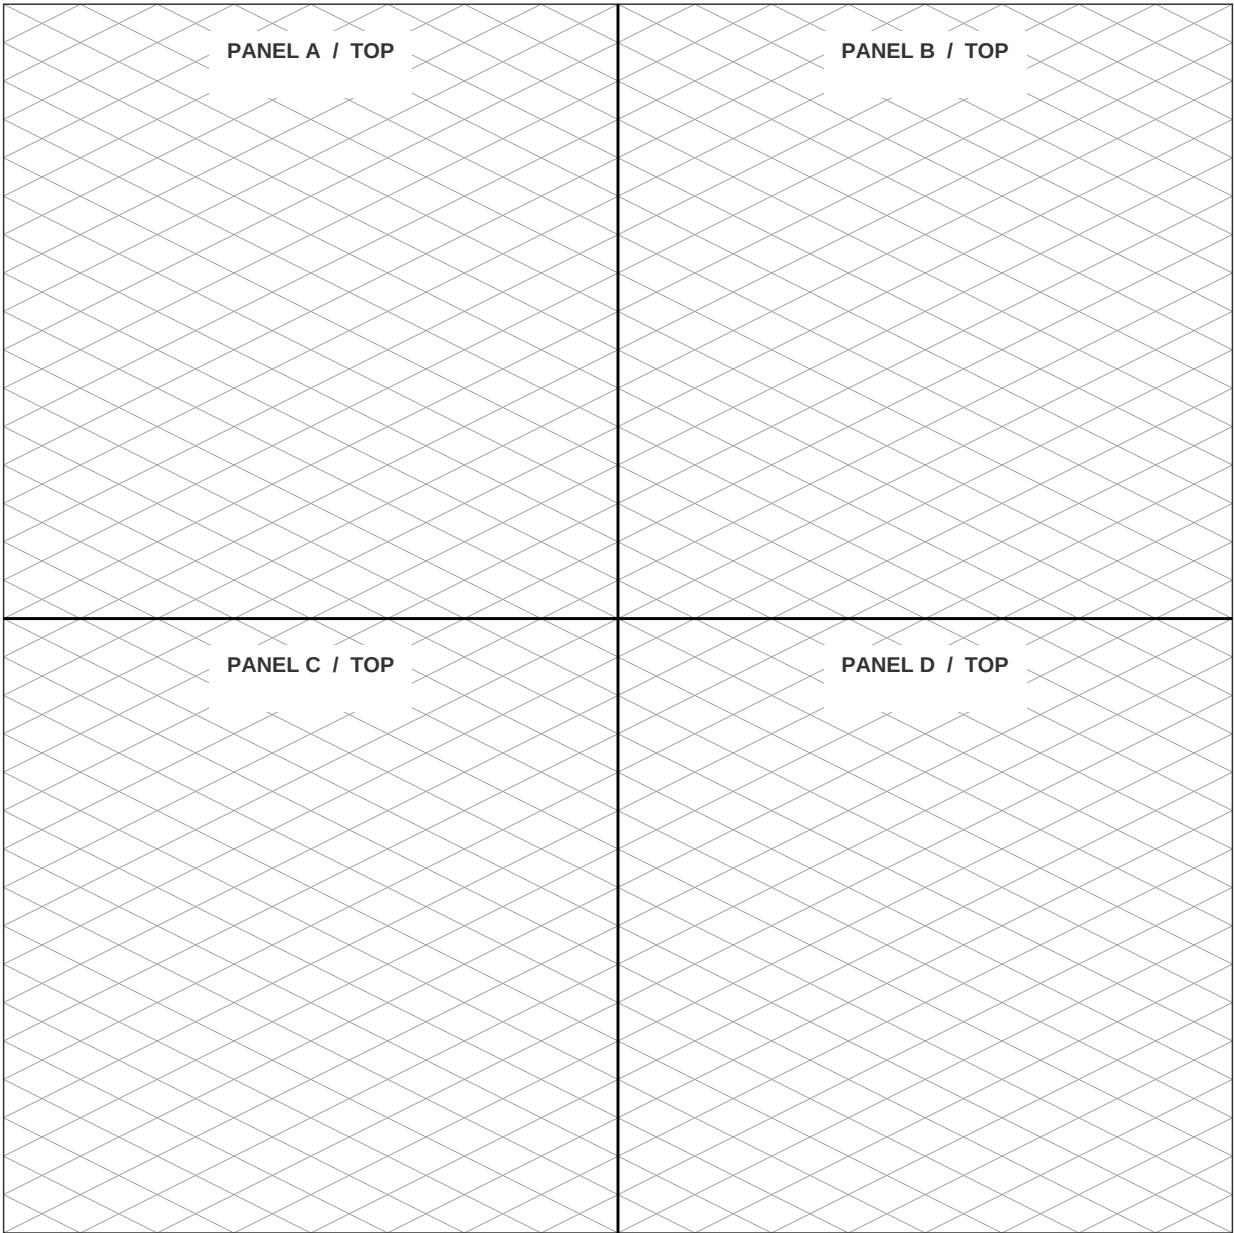

Measure the square: exactly 8 inches on both sides. Do not trace a scaled print.

Crop or trace on the square border. Mark TOP on the back of every physical panel.

Scale check:  This line must measure exactly 1 inch.

ASSEMBLY PROOF / REDUCED SCALE

Four copies of the same template. Labels represent arbitrary dungeon panels.
Reorder the panels freely; keep TOP up and their physical edges flush.

Horizontal adjacency: 8 inches = 8 horizontal grid repeats.
Vertical adjacency: 8 inches = 16 vertical grid repeats.

The grid is periodic in both directions. Every panel uses the same corner origin.
Matching grid lines do not imply matching doors or tunnels; author those deliberately.

This page is a reduced assembly illustration. Use page 1 for the full-size tracing template.
